SCADATA Scientific moves to Innovation Center – Technology Park

FORT WAYNE — SCADATA Scientific, LLC, formerly on E. State Boulevard, has moved its executive offices and prototyping laboratories to expanded facilities in the Northeast Indiana Innovation Center at the corner of Stellhorn and St. Joe Roads, adjacent to the IPFW and Ivy Tech North campuses.

SCADATA is a developer and manufacturer of monitor, control and alarm systems for municipal, oil and gas, and industrial applications in process and infrastructure monitoring and control. For more information, visit www.scadata.net.
